

Solufeed HYP

EC FERTILISER

High phosphate-containing foliar fertiliser

Uses

Many soils especially those of a sandy nature, are often deficient in phosphorus (P), potassium (K) and magnesium (Mg); the traditional remedy is to apply large quantities of expensive granular fertilisers. *Solufeed HYP* is a more effective alternative providing readily available P, K and Mg, in solution directly to the plant leaves where it is needed. A pronounced and beneficial effect on crop performance can be expected together with associated improvements to yields and quality.

The product is specially designed for foliar application.

Benefits

Solufeed HYP can be applied to a wide range of crops including field crops (e.g. wheat), vegetable crops (e.g. *Brassica* species) and fruit crops (e.g. apples).

Solufeed HYP is one of a wide range of speciality fertilizers manufactured in the UK by Solufeed Ltd. The product is batch manufactured according to quality management system ISO 9001:2015 using consistent, soluble and high purity raw materials.

Chemical/physical data

Typical analysis

	% w/v	% w/w
Phosphorus as P ₂ O ₅	44.0	29.12
(Phosphorus as P)	19.45	12.87)
Potassium as K ₂ O	7.4	4.8
(Potassium as K)	6.1	4.0)
Magnesium as MgO	8.0	5.3
(Magnesium as Mg)	4.8	3.2)

Analytical Method Available on request.

Appearance A water miscible clear liquid.

Directions for use

Application rates

Large scale application: Apply through overhead irrigation (e.g. centre pivot) or tractor sprayer at the rate of 5 litres per hectare in at least 200 litres of water per hectare.

Small scale application: Apply through knapsack sprayer at the rate of 500 ml per 100 litres water and spray to run off.

Timing

Apply at times of peak nutrient demand, at the onset of the phase of fast vegetative growth e.g. wheat apply at tillering.

Directions

Half fill the spray tank or mixing vessel with clean water. Add the required amount of *Solufeed HYP* and agitate until dispersed. Top up with the remaining water and continue agitation. Spray immediately.

Apply alone not in mix. Do not tank mix with other products.

Do not apply in hot bright sunshine or to plants under drought or other stress.

General information

Packaging: 1, 5, 10, 20 and 1000 IBC

Technical service: For further information, assistance and access to The Solufeed Advisory Service, please contact Solufeed at the address below.

Precautions

Keep out of reach of children.
Keep in original container.

Store in original container in a suitable secure cool store away from food drink and animal feeding.

Detailed health and safety information may be found on the relevant Material Safety Data Sheet (MSDS) available on request from the address below.
